Recovery

The table below documents the UK Waste Types that are 'exempt' from Waste Management Licensing. The wastes documented below can be spread on agricultural land without pre-treatment.

<i>Source of Waste</i>	<i>Kind of Waste</i>
Part 2	
Wastes from the preparation and processing of meat, fish and other foods of animal origin	Blood and gut contents from abattoirs, poultry preparation plants or fish preparation plants Wash waters and sludges (with or without treatment) from abattoirs, poultry preparation plants or fish preparation plants Shells from shellfish processing
Wastes from fruit, vegetables, cereals, edible oils, cocoa, coffee, tea and tobacco preparation and processing; conserve production; yeast and yeast extract production, molasses preparation and fermentation	All wastes derived from the processing of such materials
Wastes from sugar processing	All wastes derived from the processing of sugar
Wastes from the dairy products industry	Wastes derived from the processing of dairy products
Wastes from the baking and confectionery industry	All wastes derived from the processing of raw materials used in the baking and confectionery industry
Wastes from the production of alcoholic and non-alcoholic beverages (except coffee, tea and cocoa)	All wastes derived from the processing of the raw materials used in the production of such beverages
Wastes from pulp, paper and cardboard production and processing	De-inked paper sludge and de-inked paper pulp from paper recycling Lime mud waste
Wastes from the leather and fur industry	Sludges from on-site effluent treatment free of chromium
Wastes from the textile industry	Organic matter from natural products Wastes from finishing other than those containing organic solvents Sludges from on-site effluent treatment Wastes from unprocessed textile fibres Wastes from processed textile fibres 3
Wastes from the manufacture of cement, lime and plaster and articles and products made from them	Wastes from calcinations and hydration of lime gypsum
Wastes from power stations and other combustion plants	Gypsum
Soil (including excavated soil from contaminated sites), stones and dredging spoil	Dredging spoil (other than those containing dangerous substances)
Wastes from aerobic treatment of waste	Compost derived from source segregated biodegradable waste Liquor from aerobic treatment of source segregated biodegradable waste Digestate from aerobic treatment of source segregated biodegradable waste
Wastes from anaerobic treatment of waste	Compost derived from source segregated biodegradable waste Liquor from anaerobic treatment of source segregated biodegradable waste Digestate from anaerobic treatment of source segregated biodegradable waste
Wastes from the preparation of water intended for human consumption or water for industrial use	Sludges from water clarification
